Oliver gets water restrictions

John K. White - Jun 16, 2019 / 9:35 am

Photo: Contributed

The town of Oliver is in Stage 1 water restrictions impacting outdoor watering.

Properties that have water flowing through a water meter are using domestic groundwater for irrigating and should restrict irrigating to three days per week using even and odd numbering as a guideline, the town said in a release.

Residential underground irrigation systems can only water between the times of midnight to 7 a.m. on watering days and should adjust irrigation timers, the town said.

Odd Numbered Houses: house numbers that end in 1, 3, 5, 7, or 9 may use a sprinkler for lawns, trees and shrubs on Monday, Wednesday and Saturday only.

Even Numbered Houses: house numbers that end in a 0, 2, 4, 6, or 8 may use a sprinkler for lawns, trees and shrubs on Tuesday, Friday and Sunday only.

For more on watering tips and drought information visit www.oliver.ca or the Okanagan Basin Water Board at www.obwb.ca and www.makewaterwork.ca
